

My wife and I do not want any federal regulation that would be less than the Indiana telephone privacy law. My wife is in a wheel chair and can not get to the telephone very fast. Before the Indiana law went into effect we used to get 15 to 20 calls, 7 days a week. We had star 69 put on our line so we could tell the last person that called. It don't work on tele-marketers. A lot of times when laying in bed at 9 pm, I would pick up the phone on the first ring and no one would be there. Since the law went into effect we very seldom have this to happen. Thank you and please do not change the Indiana law.
